For State Senator.  
We are authorized to announce  
**DR. J. H. PREWITT,**  
of Hopkins County, as a candidate  
for the State Senate, subject to the  
action of the Democratic party.

Tilden stock for 1880 is steadily declining.

It costs just \$25 to cowhide a man in Louisville.

Col. Thos. M. Green has brought suit against Judge Hargis for libel.

It now turns out that August 26, 1860, the day upon which Green says Hargis was sworn in as an attorney was Sunday.

The Courier-Journal and The Post and News are having it up and down. The former is for, and the latter against Judge Hargis in the Green case.

The Covington Commonwealth wants to Dick Tate to the Democratic nomination the course he must pursue in the canvass, and calls upon him to take the stump.

John M. Langston, United States Minister to Hayti, and one of the most widely known colored men in the country, died of yellow fever Wednesday.

We have just received a copy of The Fruit-Farm a new paper recently started at Russellville. It is devoted to the interests of agriculture and is issued quarterly.

Zeno Young is still opening his weekly broadsides upon Pratt, the Dodger, as he calls him. His defeat is a foregone conclusion. Prewitt will go in with votes to spare.

During the present session of the House 2,335 bills have been introduced.—Examiner-Journal.

This may all be very well, but the bills that more directly concern the people are those that are being daily drawn out of the treasury, by the prolonged and useless session.

Hon. P. W. Hardin, Democratic nominee for Attorney General, will speak at this place Monday, June 30, at 1 o'clock, p. m. He invites his opponents to be present and participate in the discussion. Mr. Clark will meet him.

Henry Clay, city prosecuting attorney of Louisville, publicly cowhided Claude Summers, a Post and News Reporter, for alleged unjust criticisms concerning the proceedings of the court. He was tried for assault last Wednesday and fined \$25.

The Madisonville Republican says Prewitt will exhibit his circus, hippodrome and menagerie there on July 2nd. Yes, but for once the services of his clova will be dispensed with. The Dodger will not be afforded an opportunity to Pratt-le off his state jokes.

Mr. J. F. Dempsey, of Madisonville, in response to a call from a large number of voters, announced himself in the last issue of the Times a candidate for Commonwealth's Attorney for the district. Mr. Dempsey's action is rather premature, but we suppose he wants to "apply early to avoid the rush." He is a young lawyer of fine capacity, but it is our opinion that the man who beats Jas. B. Garrett, of Trigg, in the race, will have to get up and dust.

An exciting and disgraceful scene took place in the Senate Thursday morning, between Conkling and Lamar. The New York bully denounced the Democrats as tyrants and charged them with acting in bad faith, when the following dialogue ensued:

Mr. Lamar said: "I pronounce the statement a falsehood, and I repeat it with contempt. I feel for the author of it."

Mr. Conkling—"I have nothing to say, but if the member from Mississippi intended to impute to me a falsehood, nothing except the fact that this is the Senate would prevent me from denouncing him as a blackguard and a coward."

Mr. Lamar—"I have only to say that the Senator from New York understood me correctly. I have no vision of the Senate for the parliamentary law game. It was very harsh and severe. It was such as no good man would desire and no brave man would wear."

The Southern Senators unanimously sustain Lamar, and have overruled him, with congratulations. Northern Republican Senators of course sustain Conkling.

Such scenes as this in the U. S. Senate are alike disgraceful to the country and the parties engaged. Of course the trouble will be adjusted without bloodshed. Although the first offensive epithet was uttered by Conkling we have no words of palliation to offer for either. Both parties should be heartily ashamed of themselves.

Thomas Buford, the murderer of Judge Elliott, will be tried July 8th.

Two men will be hanged in Louisville Friday, one for murder, the other for rape.

The 25th anniversary of the Republican party in Massachusetts, will be celebrated on the 19th July.

Recently developed facts and figures have turned the tables to such an extent that Green, now proposes to sue Hargis for libel.

Judge Stites, of Louisville, has returned a negative answer to the petition of the negroes to be allowed to serve on the jury.

Senator Bayard is a true statesman. He will be a formidable Presidential candidate in 1880. His chances are steadily improving.

The Kentucky Congressmen recently presented Mary Anderson, the actress, with a basket bouquet with the word "Kentucky" wrought in the center.

Jno. H. Merkel, who is now in the Clarksville jail for the murder of Emma Draudt, was visited last week by his mother, and soon after the jailer took from him a bottle of poison, with which it is supposed he intended to commit suicide.

It is said that Walter Evans, came out second best in his debate with Cook, Greenbacker, at Princeton last week. At any rate he declines to meet him on the stump again. It seems he is rather easy to dispose of. In one or two discussions he found the Democratic candidate a hard nut to cope with, and refused to meet him further, and now it appears that he has had his goose. Cooked by the Greenback nominee.

## Hargis-Green.

A meeting was held by a portion of the bar of this city last Monday for the purpose of taking action in regard to the charges brought against Judge Thos. F. Hargis, of the Appellate bench, by Col. Thos. M. Green, of the Mayville Eagle. Thirteen of the thirty members of the bar participated. Resolutions declaring that Judge Hargis should sue Green for libel, or bring a civil suit in order to have the affair investigated, were adopted by a vote of 11 to 2. Several other lawyers were present but declined to take part one way or the other.

## Startling Freaks—The Obliquities of the Upper and Lower Worlds.

The general confidence, the common faith of mankind in the uniformity of nature and nature's laws, is undergoing at the hands of speculative science a severe ordeal. Whenever the repose of this confidence is broken by some wild and unexpected freak, either in the heavens above or the earth beneath, the imagination takes wings and fills the world with all the vagaries of supposition, many of which are as nonsensical as the ravings of the Pithia, and as antagonistic as the vaticinations of the Cithyrs. Unrestrained prediction runs riot, and either the eye of all things is declared to be near at hand, or the advent of some triumphant person or era to be dawning.

It cannot be denied, however, that many strange things, in the Platonic and Neptunian world, have happened during the past few years, and no one can intelligently glance at the rapidly with which these events are at present succeeding each other without having started in the midst serious questions as to the cause and probable consequences of these phenomena.

Not only is it true that the waters of old ocean seems to be in a state of unrest, emerging and submerging islands here and there, flooding this river and draining that; but Mount Etna and Vesuvius, with kindred terrorists, are vying with each other in attesting that all is not quiet within, but as if to give vent to the internal pent up emotions each is increasing in its flow of lava, which is flooding the surrounding country, carrying destruction and death in its wake. The earthquake is shaking Burma, till nearly all the West Indies feel the shock. While cyclones in Kansas and other regions are frantic in the work of death. Scarcely a week ago in New Hampshire, the mercury ran up to 100 deg. in the shade, and in Chicago it fell from 83 deg. to 66 deg. in four minutes; at Milwaukee they had the "beautiful snow," while Jack Frost paid his destructive respects to the full fledged vegetation of many parts of the great West. What does all this mean? Is nature in a delirium? or do we dream? What is the matter? Things are not as they used to be. Surely the wind and the wave, the mountain and the valley, the air above and the earth beneath have in some way lost their balance, and mighty changes may be pending.

Somebody says the Mississippi valley was once an ocean bed—that once there was an Atlantic Continent. It sank and drained the ocean bed of most of North America. It may be that the overflow of European rivers and the depletion of some in the Western Continent, portend another dip, another revolution in land and sea. But our object is not to follow our imagination, but simply to call attention to facts, some of which look rather ominous even from a scientific standpoint.

A little boy by the name of Johnnie Miller living near Richardsville, in Warren county, became entangled in the rope of a swing and accidentally hung himself.

# Something Must be Done.

Democrats of Christian county you are called upon to act. Next Saturday is the day appointed for the nomination of candidates for the Senate and Legislature. Prewitt, of course, will be the nominee for the Senate and will be elected, but the candidate for the Legislature is yet to be selected.

There are persons in the party who oppose the nomination of any one. Let us a moment look at the situation. There are already two candidates in the field. Mr. Feland, the Republican nominee, is, in claim, not the man wanted by his party. The convention which nominated him took place in a row. The representatives of the northern part of the county, left swearing not to support him. Dr. Fuqua, the Greenback candidate will probably poll two or three hundred votes. Now, if the Republicans are divided, and the Greenbackers take a hundred or two from their ranks, while they take only, say, half as many from the Democrats, why what is to hinder a good Democrat from being elected? If we put out the right man he can and will be elected. There are plenty of good men in the county who will not seek the nomination, but if nominated will lead the party on to victory. Mr. Feland in 77 was only elected by, we think, about 150 majority, when he ran against a man comparatively unknown in the county, and who declined to make a canvass of the county. At that election many Democrats did not vote at all. Now put out a man who can carry the full strength of his party, and with the disaffection in the ranks of the Republicans, and the Greenback party to diminish them by taking away a portion of the negro vote, as the friends of the party claim will be done, his chances for election will not be hopeless by any means. On the contrary we verily believe if the proper kind of a man is nominated his election will be almost certain. We want one who will enter with zest into the conflict and cope with his enemies at all times and places on the stump; we want a man with ability and education, who will be acceptable to all classes of the Democracy. And such a one can win. Many of the Republicans will not vote, and with the Greenbackers also to weaken their organization, a Democrat can easily succeed. Then, Democrats, if you will but do your duty, nominate a good man next Saturday, rally to his support to a man, the old banner of Democracy which has so long trailed in the dust will once more be unfurled to the breezes of Heaven, and the glad tidings will go forth in the State that Christian county has wiped out the disgrace of years and done her duty. Away with that pitiful whine, "It's no use to run a candidate." Nil desperandum. Never give up the ship! The prospect is brighter than for years. Put out your candidate, stand up to him like men and the first Monday in August muster all your forces, charge the legions of radicals, and greenbackism, and the sun will set at night upon a Democratic victory. Will you achieve this victory or sit in inglorious ease and see your party fall to pieces? Let no true Democrat pursue this course, but, rather, let us all arouse ourselves from our lethargy and strike a hard and well aimed blow for Democracy.

We say in the end, as we said in the beginning, the time has come when something must be done.

## A Card—Declination.

Jas. T. Coleman, John R. Green, John W. Cooper, Wm. T. Townes, Wm. Cowan, and others:

GENTLEMEN:—Your "call" on me to announce myself a candidate for the Legislature has been duly and maturely considered. I thank you sincerely for the honor you do me therein, and the further honor in prospective, but I cannot accede to your request. The only reason under the sun that will induce me to become a candidate for the Legislature, and thus cast loose my frail bark on the tempestuous sea of political life would be the fear—the dreadful, haunting fear—that the Democratic party will be permitted to go to pieces on the rock of inaction. But I look around me and I can name you twenty men, Democrats, true and tried, men as patriotic as myself, men who seek a political future, and who are better fitted for the position than I am.

It would be a sacrifice for me to run for the Legislature; it would be a sacrifice for me to go to the polls and be the suicide of every material interest. I do not conceive that the exigencies of the Democratic party, or the times demand this sacrifice of me. I seek no political notoriety, but am content to serve the people in the position, which by an almost unanimous vote they have elected me, and where I flatter myself I can serve the county quite as well as in the other.

Again thanking you, gentlemen, for the honor you do me, I am,  
Very truly yours,  
AUSTIN PEAY.  
June 16th, 1879.

## POLICE NEWS.

There is no one on the rock pile working out fines.

Mary Callis was arraigned last week, charged with disorderly conduct. An examination resulted in her acquittal.

Tom Bullard got on his regular weekly drunk Saturday evening, and obtained lodging at the Hotel de Long.

A fight at the depot Sunday between two small boys created considerable excitement for a while, but was suppressed without the interference of the police.

A man named Bell, living in the country was up before Judge Long yesterday, charged with beating his wife. We did not hear the particulars but understand the latter was severely hurt about the head. The case was continued.

A difficulty occurred at Wheatley & Meane's stable Sunday, between a negro who works there and a white man. The fight was finally ended by the flight of the negro.

SHOOTING AFFRAY.  
Frank Bell shot a negro near Garrettsburg one day last week. The circumstances are about as follows: Bell commanded the negro to "cap some wheat" after the sun had set, which he refused to do, saying that he had finished the day's work. Some words followed, and the negro put his hand behind him as if to draw a pistol, but Bell saw the movement and drew his first and shot the negro as he turned to run. The negro was the facts in the case as near as we have been able to learn.

Mr. W. L. Adegree was in the city last week exhibiting a patent churn of his own invention, which is decidedly new in that line. It works by clock-work, and runs either by a spring or a weight. All one has to do is to wind it up and go about his business till time to take up the butter.

A man whose name we did not learn came very near being run over by the train one day last week. He started across the track just as the train was passing and the heel of his boot got fastened between the ties in some way. He only escaped by jerking off his boot and falling headlong some feet from the track, just as the train swept by.

The rope walking last Tuesday was a farce. The aerial gymnast failed to get his rope fixed in time and put the crowd off till the following evening, at which time he performed only a few minutes, alleging that the amount raised did not justify a longer exhibition. He advertised that he would jump twenty feet in the air, which was all that was accomplished.

We have failed to note that the doors and windows of the Phoenix Hotel have recently had awnings erected over them, and that the painting has been finished. Mr. Grissam expresses no pains to make his hotel best class in every particular. His attention is directed not only to the outside appearance, but to the inside arrangements and accommodations as well.

Henry Steele who was recently reported lost has been found in the neighborhood of Cadiz. He came back to the county the other day to let his friends know of his whereabouts. He says he don't know "Wharton" earth Jno. Cooper raised such a fuss in the papers about it for; that he is near Cadiz, proposes to stay, and is perfectly willing to have Jno. and his friends call at any time that that suits them.

## Tobacco Fair.

The tobacco fair held in this city on the 17th inst., was conducted in a manner satisfactory to all. The entries were numerous and some of them of excellent quality. The premiums were awarded by a committee selected from buyers from other markets. Space will not allow us to give a list of the premiums, and the successful competitors.

## Williams & Gregory.

For some weeks this firm has discussed the propriety of introducing into this market a steam road engine. Having come to a final conclusion in regard to the matter they ordered one to be shipped to them via Clarksville. On last Tuesday the engine arrived in Clarksville and was put on the road to run through to Hopkinsville by its own propelling power, drawing besides its own weight, a portable engine, two threshers and a wood and coal wagon. The engine is a 10-horse power, and its capacity is 12 tons. It was sold after its arrival to H. Gregory & Bros., of Church Hill, and will be used for threshing grain and hauling wheat and tobacco to market. The speed of the engine is from 3 to 8 miles an hour, according to the grade of the road. This is the first engine of the kind ever brought to this section, and in fact it is one of the first ever perfected. It would be hard to find a more enterprising firm than Williams & Gregory, and they always work to the best interests of the counties they supply with machinery, and other farmers' merchandise.

Christian Lodge, No. 820, Knights of Honor, will install their officers at Mozart Hall, July 1st, 79. Elder R. C. Cave will deliver an address on the origin and objects of the Order. All invited to attend.

## MARRIED.

JOHNSON-PERKINS: At the residence of the bride's father, Mr. J. R. Perkins, near Guthrie, Ky., June 18, by Rev. Mr. Day, J. Calhoun Johnson, of McLean county, and Miss Eliza Perkins. Mr. Johnson is a son of Judge J. W. Johnson of McLean county, and is a grandson of Judge John Calhoun. Miss Perkins is a niece of Hon. Ben Edwards Gray, who represented his district in Congress a number of years. The party passed through this city on their wedding trip Wednesday, en-route for Calhoun, Ky., where they will make their future home. They were accompanied by Messrs. Mary Day, and Nannie Perkins, and Messrs. A. W. and A. G. Johnson. May the newly wedded couple enjoy a long life of uninterrupted happiness and prosperity.

## TRENTON.

We are in the midst of wheat threshing.

The wheat crop is very good, but there is considerable complaint of smut. The Georgia wheat which some of the farmers paid three dollars a bushel for last fall is at least half smut. It was represented as a rust-proof wheat but it had the rust worse than any piece of Antioch bought down in the same field with it. These two things were very badly sold.

Only two-thirds of a tobacco crop has been planted in this section, and that has not been replanted, the stand is a very poor one.

Very few farmers have sold their tobacco, as the season has been dry to handle it.

Cross Wood rode out to the wheat field to see the self-blinder work, and feeling a little lazy he assumed a reclining position on his horse. The horse jumped aside suddenly and Cross struck the ground with such force that the wheat was jarred down and tangled so that Mr. Ward could hardly save it.

Miss Mary Perkins has returned home from Lexington, Ky., where she has been attending school. We are very much afraid Joe will neglect his wheat crop. He was the happiest looking boy Sunday we ever saw.

Mrs. Olive Waller, of Russellville, is visiting friends and relatives in this place.

Miss Maggie Banks, of Henderson, is visiting Miss Joy Seabree.

The Levee at the hall Tuesday night proved to be a big dance. Principally church-members danced.

We are in receipt of a ticket to attend the marriage ceremony of Miss Joy Seabree and Mr. Strother Banks on the 15th. Arrangements have been made for a grand ball on that occasion. Our young friend Jim Center expects to locate in Union county, soon to sell the Singer sewing machine. We wish to hear from him for he is one of our chief ladies men. Guyton is very glad he is going, for he will have the whole field to himself then.

We with two other young men received a very mysterious communication from Hopkinsville, last week. We recognized the hand-writing, but could not interpret it. The letters could not spell anything. We think the young lady for thinking of us, but hope she will send along the interpretation next time.

## CHEEK.

Mr. Otto Owen, of Bellevue, paid a visit to this vicinity last Saturday. Everybody is busy harvesting and all seem to think the yield will be satisfactory.

A negro boy returning from his work on Wednesday evening, was shocked by lightning and became so alarmed that he professed religion during the night.

There is a young minister in our neighborhood who takes great delight in playing croquet, and if you don't watch him, he will saw-ye every time.

The matrimonial market is dull. We hear no talk of weddings, several who were are candidates, we believe.

Mr. Catlett, of Virginia, is visiting his cousin, Prof. L. T. Filpp, the principal of our school at this place. Although we have never visited the school, we are confident that the Prof. has a large and well conducted school. At noon, however, he proposes teaching an additional class of young ladies to play croquet.

A negro child was burned to death near here yesterday by the explosion of a coal oil can while endeavoring to kindle a fire with the oil.

"Why," asked a governess of her little charge, "do we pray God to give us our daily bread? Why don't we ask for four days, or five days?" "Because we want it fresh," replied the ingenious child.

Born—To the wife of W. W. Ballard, on the 18th, a girl.

It is with profound regret that we chronicle the death of the oldest son of Mr. J. M. Maddox, who died on the 11th inst. Mr. Maddox is a very hard working, honest man, and his son was the only help he had. The family have the heartfelt sympathy of the whole neighborhood.

We have just been informed that Mr. W. S. Wyatt has had the misfortune to lose his tobacco barn and its contents last night, in which, we understand, were about thirty thousand pounds of tobacco. It is thought to be the work of some incendiary. Insurance \$1,500.

A. L. Kenner, Jr., who has been afflicted with sore eyes for some time, has gone to Nashville and placed himself under the treatment of Dr. Edwards, who thinks he can cure him in about six weeks.

Very few farmers, of Hopkinsville, is visiting Misses Bessie and Jennie Williams. Some of the boys paid them a visit last night, and returned at a late hour. The young M. D. is among the rest who worship at that shrine.

Daniel McCarty, a colored man residing near here, relates that on Friday night of last week, while returning home from his work, his dog bayed something, and as he was shaking a grape vine which was attached to the tree in which the supposed game was, something very heavy in the way of an animal sprang from the tree and lit on his shoulders, knocking him down and treating him in rather a cool manner. We know nothing of the truth of the statement, other than his face was badly scratched and bruised the following morning. The dog arrived home a little ahead of time.

Several young people from this neighborhood went to Cereus on the 12th.

The song of the reapers is heard. A number of farmers are ready to thresh.

Miss Theresa Lewis, an interesting young lady from the vicinity of Dover, Tenn., was in the neighborhood last week.

Miss Fannie Wardroben, who has been teaching school near Roy Cayce's, closed her school on the 13th, and departed for her home in Lexington. She was an accomplished young lady and we are sorry to lose her.

## Large Farming & Precarious Business.

The following figures are given by a San Francisco correspondent of a Philadelphia paper, as evidence that farming on a gigantic scale is profitable neither to the country nor to the farmer. He says: "The largest wheat producer in California, or in the world, is Dr. H. J. Glenn. He was formerly from Monroe County, Missouri. He is a man of great enterprise and energy. His ranch lies in Colusa county, and comprises sixty thousand acres, nearly all arable land. He has this year forty-five thousand acres in wheat, which, at a low calculation, will produce nine hundred thousand bushels. His wheat will sell for 85 cents per bushel, or seven hundred and sixty-five thousand dollars. Dr. Glenn has been farming ten years, and one would suppose he ought to have a handsome sum to his credit in bank; but with a failure of crops—which occurs two years in every five—and the enormous interest he pays on his loans, he is said to owe a round million of dollars. Last year his credit was bad, as he had no crop. Now, with his splendid crop in prospect, he will probably get out. The Dalrimples of St. Paul, who, ten years ago, were the largest farmers of wheat in Minnesota, raising as much as forty thousand bushels in a single year, went to the wall. Another large wheat raiser is D. M. Beavis, whose land lies on the borders of Colusa and Butte counties. He is also from Monroe county, Missouri, and has an unpretending little estate of fifteen thousand acres, thirteen thousand of which are in wheat, which he thinks will average this year thirty bushels, or three hundred and ninety thousand bushels. He also is hard pressed, and I am told is paying 9 per cent. on a couple of hundred thousand dollars of borrowed money. If farmers raising half a million to a million bushels of wheat cannot get out of debt, it might be well to inquire what is the use of having so much land? The truth is that from the frequent failure of crops in California and the waste that attends on large operations of that kind, farming on a gigantic scale in this portion of the Pacific coast must be considered a failure. North of this, in Oregon and Washington Territories, there is no failure of the harvest; farming operations are carried on on a small scale, and consequently the farmers, while not drolling in wealth, are all well to do."

### Mark Twain as a Reporter.

I reported on a morning newspaper three years, and it was pretty hard work. But I enjoyed its attractions. Reporting is the best school in the world to get a knowledge of human beings, human nature and human ways. A nice, gentlemanly reporter—I make no references—is well treated by every body. Just think of the wide range of his acquaintanceship, his experience of life and society. No other occupation brings a man into such familiar social relations with all grades and classes of people. The last thing at night—midnight—he goes browsing around after items among the police and jail birds in the lock-up, questioning the prisoners and making pleasant and lasting friendships among some of the worst people in the world. And the very next evening he gets himself up regardless of expense, puts on all the good clothes his friends have got, goes and takes dinner with the Governor or Commander-in-Chief of the District, the United States Senator, and some more of the upper crust of society. He is on good terms with all of them, and is present at every gathering, and has easy access to every variety of people. Why, I breakfasted every morning with the Governor, dined with the principal clergyman and slept in the station house. A reporter has to lie a little, of course, or they would discharge him. That is why I left it. I am different from Washington; I have a higher and grander standard of principle. Washington could not lie. I can lie, but won't. Reporting is fascinating, but then it is distressing to have to lie so. Lying is bad—lying is very bad. I think that for a man to tell a lie when he cannot make anything by it is wrong.

### Original.

The process adopted by Dr. Price in making his Special Flavoring Extracts is original. By this new process he is enabled to produce flavorings of the finest quality, retaining the freshness of fruit, so concentrated that a small quantity produces each characteristic flavor.

### A Dead Woman Bottled.

Cremation, or the method of burning our bodies after death, created some little stir in this country, but met with very little favor. To place our child, mother or father into a hot oven, after death, and to stand and gaze at its rapid incineration, and conversion into a few stoves of ashes, is in our estimation, cruel and sinful. Now ladies, who are suffering from some female complaint, who have become irregular, or have pains and aches, hysteria, nervousness and general prostration, we advise you to use English Female Bitters at once, and claim a new lease upon your lives. It is a wonderful female regulator, and also a quick and powerful tonic, curing chronic cases in an incredibly short time.

### Too Much Doctor.

Yang Ling says: "My head aches, my bowels fasten, I can eat nothing, and no longer from thirst. I am a doctor, and I make no mistake. The medicine man, the doctor, the doctor, he comes and says open mouth, poke out tongue, he feels my pulse, he writes on a piece of paper and send it to the medicine shop. He then charges me three dollars, ever so much too much. I take 'em all, the sound follows, they place me and I no longer. My head still aches, and my bowels fasten and I no longer. I send to the medicine shop one half dollar and get one bottle of Dr. Williams' Pink Pills. I take the medicine when it comes, and my head no longer aches, and my bowels no longer fasten, and I go about my business and make money again. Too much doctor man in this country."

### Day's Ague Tonic.

It is creating quite a furor among the chillsuffering people. Being rather a new innovation, and claiming advantages heretofore deemed impossible, it has excited much interest and permanent cure, cause the people to talk about it. It contains no quinine, arsenic, mercury or other deleterious drug of any kind. Does not produce buzzing or roaring of the head which follow the use of quinine. It cleanses and tones the stomach, arouses the liver and operates freely upon the bowels, without the use of any medicine. Its action is prompt and its cures are permanent, and chronic cases that have resisted all other remedies are cured at once by the use of Day's Ague Tonic. Its pleasantness renders it a favorite among women and children.

LOST!

It is an Established Fact

That Quinine or Cinchonida will not cure Chills, and for this purpose there is no better remedy. But it is also an established fact that Quinine will not cure Chills, because it produces the Chills. For if they did, the Chills would not return on the 7th, 10th, 12th, or 20th day. Then it is not money LOST to attempt to permanently cure the Chills with Quinine at Indianapolis, when they do not remove the cause from the system that produces them? For until the cause is removed, the Chills will return. The

Ferrine

is warranted to remove every cause from the system that produces the Chills, and it is the only medicine that will cure them. For every drugstore is authorized to guarantee a permanent cure in every case, or return of how long standing, and will refund the money if the Chills return after you are through taking. Positively no cure, no pay. Try it and be convinced. It contains no poison, and is perfectly harmless. Sold by GRAY & BUCKNER, and a permanent cure guaranteed in every case.
